About Us

Platinum Joinery Interiors is Queensland owned and operated by Lauren and Rob Hunter.

The PJI team are proud of the reputation they've developed for delivering both excellent customer service and high-quality joinery and fit outs for prestige retail, domestic and commercial spaces across Australia.

With over fifteen years of experience under his belt, Rob is a respected project manager, cabinet maker and craftsman, and supervisor of the Platinum Joinery Interiors team on site. Lauren brings her operational management expertise and friendly approach to service behind the scenes, making sure that every customer experience is seamless.

Team PJI are committed to safeguarding quality throughout the process of a build, from concept to completion. They'll operate with integrity and collaborate with ease, making sure your space meets your specs and your vision is executed with care.

Shop Fitouts

When it comes to retail store fit outs, the PJI team have demonstrated our aptitude for creating premium shopping environments for you, our customers.

Our recent work has included retail shop fit-out and installation projects for brands including Mont Blanc, Armani Collezioni, Zamel's Jewellers and others. Executing these projects gives the PJI team the opportunity to create elegant spaces where customers can experience these brands in person and with pleasure.

Superior Craftsmanship

We understand that your retail space needs to reflect the positioning of your brand. As such, we'll ensure that every aspect of your fit out is completed to the highest quality. At PJI, our experienced team will source the best materials and set new standards in craftsmanship to give your products the showcase they deserve.

Commercial Fitouts

To help you make the best use of your commercial space, the PJI team will establish your usage requirements, aesthetic preferences, occupancy and objectives from the outset of your commercial fit out project.

We've worked with a variety of companies, from architectural offices to RSL clubs and many others in between, to make commercial spaces that are modern, accessible and well-suited to their mode of operations. If you've got a commercial fit out project in mind, we'd love to discuss how our industry insights, supplier contacts and runs on the board can contribute to your success.

Architecturally Designed Joinery

Joinery Specifically For You

At PJI, we can produce bespoke joinery in-house to meet your specific requirements and aesthetic preferences, so you don't have to compromise on those important details. Our tailor-made joinery allows you to customise your space with features and fixtures that accommodate your lifestyle, in every way and in every room.

Testimonials

Platinum Joinery Interiors produce an excellent quality of work. Robert and his team have a very fine attention to detail, and are professional and prompt. As an interior designer, I would highly recommend Platinum for any commercial or residential projects.

MELISSA BLIGHT
Two Fold Studio

I used Rob and Lauren to do my office fitout in Brendale. I love what they produced for me and I can't recommend them highly enough. Premium finish, great communication throughout the process and they stuck to the schedule (which is rare these days). I'll be using them again for some revamps I need done around my home.

MARSHA BOYLE
Simplified Business Solutions

Communication and Collaboration

The PJI team will work with you to ensure that we understand your vision completely. As well as executing your project to our exacting standards, we'll prioritise customer service: inviting your input, keeping you updated on our progress and completing on time, in budget, to spec and to your complete satisfaction.
